

Dear McLean Parents,

Top Test Prep has been the premiere private tutoring company in the Washington DC area for the past ten years. We are excited to continue working with McLean School to prepare your students for this year's ACT and SAT and help them gain entrance to their top schools.

Students will have the opportunity to work with highly experienced tutors who have scored in the top 1% of the test they teach. Classes will build students' testing confidence by looking in-depth at the different subjects covered on the exam, and concentrating on Top Test Prep's proven SAT and ACT strategies.

Courses will begin with students taking a diagnostic test. As the course progresses, practice tests accompanied by custom score reports will allow you to track improvement, and see the areas in which individuals need to concentrate their studies. Practice tests will be offered as take-home exams, but students are welcome to take proctored tests at Top Test Prep's office.

Assignments will keep students on track between meetings, and will help refresh and retain material covered during class. Class instructors will work closely with Top Test Prep's office to make sure that each student receives the best preparation possible in order to succeed on the test.

Classes are forming now. Enrollment for these courses closes January 15, 2012. For questions please feel free to contact Jenny Whichard at McLean 240.395.0690. To register, contact Margaret Doan, Communications Manager at Top Test Prep 202.618.4474.

Sincerely,

Top Test Prep and McLean School
